

tér

At Tèr Spaces, we embark on a luxurious journey that marries the opulence of design with the serenity of harmony. With a legacy that spans two decades, our story began in Sharjah, where we introduced a vision of interior design that was unique, and over the years, we have evolved into.

Tèr Spaces is your gateway to a world of exquisite interior design and fit-out solutions, catering to both the commercial and residential domains. With an unwavering commitment to quality, functionality, and aesthetics, we provide a comprehensive suite of turnkey services. From crafting custom furniture to offering expert Feng Shui consultations, our meticulous approach ensures that every space we create is not only a visual masterpiece but also a haven of comfort.

Timeline of Our Milestones

2000

First Established as a design and fit-out company based in Sharjah.

2010

Created our first website, moved into a bigger warehouse to produce higher quality furnitures in higher quantities.

2015

Established our second office specializing in commercial design and furniture.

2023

Re-branded into Ter Spaces in Dubai.

UAQ Government Office

This government office in Umm Al Quwain features a functional yet elegant layout. The meeting room includes a 6-chair table with a wall-mounted TV. The seating area highlights a UAQ-shaped coffee table surrounded by a couch and lounge chairs. The office space offers ample storage, sleek shelving, and a hidden coffee corner with maroon marble accents. Light wood cladding, white textured wallpaper, and black aluminum trim tie the design together with modern sophistication.

Chancellor Chris' Office in UAQ University

This area was designed to overcome the structural challenges of the office, particularly the slanted wall that made traditional desk placement difficult. To resolve this, a custom-built slanted cabinet structure was introduced, creating a straight and functional backing for the desk while seamlessly integrating with the overall design.

Wahid's Living Room

Wahid envisioned a luxurious living room to serve as an elegant display at the entrance of his home, even though it's not a space he frequently uses. To achieve this, we designed a sophisticated layout with a partition that separates the living area from the dining space. The TV is positioned to rotate, allowing visibility from both areas. Wahid preferred a white color palette, so we incorporated it in a way that feels refined and not overwhelming, balancing it with warm wood tones to add depth and warmth to the room.

Wahid's Majlis

Wahid's majlis combines warmth and sophistication, with wood and stone elements adding depth to the space. A large, central couch anchors the area, while a sleek TV unit with hidden shelves ensures functionality. A shelf unit paired with a console table enhances the design, and the flushed main door seamlessly extends the wall for a clean, cohesive look.

Omar's Bedroom

Omar envisioned a bedroom that reflects his style as a young adult, with ample storage and soothing earthy tones. We selected a warm, medium-toned wood that strikes a balance between dark and light. To create contrast, we incorporated crisp white accents in the bed and window bench area. A touch of reflective dark glass adds depth and sophistication. Additionally, we integrated a functional desk space, making the room both stylish and practical.

Omar's Bathroom

For Omar's bathroom, we selected a warm cream-toned stone that seamlessly extends from the walls to the floors, creating a smooth, cohesive finish. A sleek partition separates the shower area, while thoughtfully integrated niches in the walls provide open storage. To maximize space, we added a corner cupboard for additional storage.

Perfume Shop

For this perfume shop, the goal was to create an inviting, earthy feeling. We opted for open corner shelves in a light wood finish, complemented by contrasting black metal accents for a modern touch. At the center of the shop, a large display table and shelving unit with integrated storage take the spotlight, offering a stylish and functional way to showcase the perfumes.

Martina's Bathroom

Martina envisioned a bathroom with sleek grey tones and ample hidden storage, along with convenient counter space for her essentials. To bring warmth and contrast to the grey palette, we introduced a warm shade of brown, adding a touch of vibrancy and balance to the overall design.

Living and Dining Area

In this living and dining area, our goal was to create a warm, inviting atmosphere, complementing the expansive space and the abundant natural light from the surrounding windows. We incorporated rich wood elements and textured concrete for depth, adding a pop of burgundy for visual interest.
